## 8B **going to**

**Aims:** To review and practise using *going to* to talk about future plans.

**Time:** 10–15 minutes

**Materials:** 1 handout for each student

### Exercise 1

- Give each student a handout and ask them to look at the pictures. Elicit what is happening in the first two pictures. Check they understand that the people are thinking of their plans.
- Students work individually or in pairs to correct the information in the sentences.
- Check answers by asking different students to read out sentences. Tell the rest of the class to listen and raise their hands if they have a different answer. Confirm the correct answers with the class.

### KEY

- Check answers by asking different students to ask and answer the questions.

### Exercise 3

- Ask students to imagine it's the last week of the summer holiday. Tell them to look at the activities and choose six things they would like to do. They then fill in the diary with those activities.
- Students work in pairs to ask and answer questions to find out what their partner is doing. They try to find a time when they are both free. They then decide what to do in that time.
- With a **weaker class**, check they know the questions they will need to ask. You might also want to revise the future time expressions from lesson 8B.
- Set a time limit of five minutes.
- Check answers by getting different students to ask and answer the questions about their plans.
